(c) In order to supplement the efforts of the State Sericulture Departments, the Central Silk Board (CSB) is implementing a number of schemes/projects/programmes for promoting development of silk. These include schemes for extension of R&D, training, infrastructural & extension support to the sector through network of CSB's units & implementation of certain developmental/incentive/financial assistance schemes for encouraging adoption of modern sericultural practices for production of quality silk.

The Sub-Group on sericulture for IX Plan had recommended an incremental production of 6540 M.T. of raw silk during IX Plan period (1997—2002). It is estimated by the Sub-Group that by end of IX Plan (2002), the raw silk production in the country will reach 20666 M.T. from the level of 14126 M.T. in 1996-97 (VIII Plan end).
