

**THE MINISTER OF STATE OF THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRI DALIT EZHILMALAI):** (a) Yes, Sir.

(b) An illegal abortion is one, which is conducted at a place not approved by the Government or by an unqualified doctor, or at a belated stage of pregnancy. With a view to making abortion safe in certain prescribed circumstances, as also preventing illegal abortion, the Medical Termination Pregnancy (MTP) Act was enacted in 1971. Subsequently, a number of authorised facilities for conducting MTPs increased from 1087 in 1976 to 8511 in 1994-95. The reported number of MTP cases increased from 3,81,111 during the years 1972 to 1976 to 6,25,931 during 1994-95. Actually, the number of illegal abortions estimated to be taking place every year is much higher. Some of the illegal abortions are conducted by qualified persons, but are not reported for various reasons. Social prejudices and the stigma, still attached to abortion make it difficult for many women to go in for MTP Operations in Public Hospitals.

Under the Reproductive and Child Health Programme launched in October, 1997, the Government has the objective of (i) Intensifying the Information, Education and Communication (IEC) Campaign in favour of legal abortions; (ii) upgrading and expanding facilities for safe Medical Termination of Pregnancies; (iii) Strengthening the MTP Centres. MTP equipment are being provided to all District Hospitals, CHCs and PHCs which have the required level of facilities; (iv) Training to Doctors under the MTP procedure; (v) providing a wide range of maternal health services including MTP, the support of the NGO sector is being enlisted.

**Orders to M/s HLL for condoms**

1876. **SHRI E. BALANANDAN:**  
**SHRI S. RAMACHANDRAN**  
**PILLAI:**

Will the Minister of **HEALTH AND FAMILY** be pleased to state:

(a) the reasons for which Government reduced its orders placed in M/s Hindus-

tan Latex Ltd. for condoms, Copper-T and oral contraceptive pills during 1997-98;

(b) reasons for people being forced to purchase those from private companies with much more prices; and

(c) how can Government control population growth if this continues?

**THE MINISTER OF STATE OF THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRI DALIT EZHILMALAI):** (a) The Purchase Preference Policy for Central PSUs was not in force when the orders for most of the annual requirements for Contraceptives were placed for 1997-98. Hence, orders were placed on firms including M/s Hindustan Latex Ltd. for supply of Contraceptives during 1997-98 in the ratio of their capabilities giving M/s Hindustan Latex Ltd. some weightage.

(b) The price at which Contraceptives were procured was the same for private and Public sectors.

(c) Adequate quantity of Contraceptives was made available for use during 1997-98, through Free Supply and Social Marketing Schemes.
