India's Stand in Second Earth Summit

1909. SHRIMATI VEENA VERMA:
SHRI SUSHILKUMAR
SAMBHAJIRAO SHINDE:

Will the Minister of ENVIRONMENT AND FORESTS be pleased to state:

(a) whether Government's attention has been drawn to the Environment activist Vandana Shiva's reported statement in the Pioneer dated July 3, 1997 that Indian team to the Second Earth Summit, New York confined more to the trade agenda, than adopting an aggressive stand on sustainability agenda; and

(b) if so, what precise stand was taken by the Indian team about sustainability aspect of the GATT agenda, stressing the need for adoption of eco-friendly technologies for development?

THE MINISTER OF ENVIRONMENT AND FORESTS (PROF. SAIFUDDIN SOZ): (a) Yes, Sir.

(b) The Indian delegation to the United Nations General Assembly Special Session held at New York in June, 1997 to review the implementation of Agenda 21, stressed the need to ensure that there is a balanced and integrated approach to trade and sustainable development which is consistent with an open, rule-based, non-discriminatory, equitable, secure and

transparent multilateral trading system. The WTO, UNEP and UNCTAD should consider ways to make trade and environment mutually supportive, including through due respect to the objectives and principles of the multilateral trading system and to the provisions of multilateral environmental agreements.

It was further emphasized that access to and transfer of environmentally sound technology on favourable terms, in particular to developing countries, should be promoted. This should include facilitating the transfer of privately owned technology on concessional terms as well as to developing countries.

These views were accepted in the final document in the Session.

लकड़ी पर आधारित उद्योग स्थापित करना

1910. श्री भूल चन्द मीणा:
श्री अजीत जोगी:
