## RE: DEMAND FOR LIST OF PERMIT HOLDER OF BLUE LINE BUSES IN DELHI.

SHRI R. MARGABANDU (Tamil Nadu): Madam, I would like to raise an important issue... (interruptions)...

SHRI JOHN F FERNANDES (Goa): Madam, last week we raised the issue about the Blue Liner ...(Interruptions)...

THE DEPUTY CHAIRMAN: I have identified him.

SHRI JOHN F. FERNANDES: Madam, last week we raised about murders done by the Blue Liner on the streets of Delhi. During the debate I had mentioned that most of the permits are cornered by corrupt Government officials including the police and R.T.A. Based on this allegation, many press people approached the R.T.O. Department for a copy of the list of permitholders. The R.T.A. is denying "them the information and they are telling the press people, 'You collect the information from the M.P. who made the allegation.' I think it is not proper. I think it is a matter of breach of privilege of the House. I would request the government to lay the list of permitholders of the Blue Liner on the Table of the House because we do not have the time to put a question and get the information.

THE DEPUTY CHAIRMAN: We had raised this issue of Blue Liner and the Blue Liner went on strike for two days ...(Interruptions)... Just one minute. So, if you want certain documents, which is the right of a Member to ask for from whoever may be the authority,' unless, those documents are of a secret nature...

SHRI JOHN F. FgRNANDES: Madam, they are public documents.

THE DEPUTY CHAIRMAN: If it is a public document, then no official should deny that ...(Interruptions)...

SHRI JOHN. F. FERNANDES: Madam, this should be made available to the press.

THE DEPUTY CHAIRMAN: I am not concerned about the press. I am concerned about my MPs. That is my job. If an M.P. wants any document which is necessary for his functioning and if it is not a secret documents, it should not be denied. The list of persons who have the permits is not a secret document. It is a document which should be given ...(Interruptions)... If he docs not, then you raise a privilege.

## RE. NEGLECT OF EXCAVATIONS AT HARAPPAN SITES

PROF. (SHRIMATI) BHARATI RAY (West Bengal): Madam, I rise to draw the attention of this august House to the utter neglect of historically significant excavations at Harappan sites.

As we all know, Madam, this spectacular civilization flourished over an extensive area covering, from the west, the Baluchistant hills and Makaran coast, to\_

the east to Punjab and down west to northern Rajasthan and Gujarat. Madam, I was shocked to read a news item published by The Hindustan Times of 9th December, that at one site, Bhorgarh, in outer Delhi, the mound has been partly destroyed by ploughs, and at another place in Mandoli, part of the area is used for public toilets and part for a modern graveyard. In a third area, at Bhojpur, the mound is lying open and the trenches are filled with rainwater every monsoon

Madam, these excavations are extremely significant because they have traced four successive cultural periods: The uppermost layer traces the mediaeval period, the second layer is connected with the Kushan era, the third with Indo-Arynas, and the last layer has found evidences of links with Harappan culture. As we all know, Madam, some western scholars, that is, orientalists, and some Indian shcolars, while constructing the ancient period of Indian history, focussed on the Orion age, the Vedic age. Some stressed the non-utilitarian aspect of the cultural history of India and some were concerned with the annals of dynasties and empires. But the corpus of evidence furnished by the Harappan culture indicates a new way of looking at our

Every civilization has its own virtues, but we can be truly proud of a civilization, a spectacular civilization—urban sophisticated—that flourished in India in the third millennium B.C., long before the Aryans even set foot in this country. This needs further exploration. Its links with the Indo-Orion culture, so different from it and so late and far behind it, has I not yet been established.

We talk of heritage and history but we allow crucial evidences for constructing our past to be destroyed. I strongly urge upon the Government to preserve, develop, protect and explore the historically significant excavations at Harappan sites.

i

Thank you.
