(c) and (d) Inflow of multilateral and bilateral loans into a particular State depends upon the size and performance.

The size of this portfolio of externally aided projects (EAPs). The size of this portfolio depends on the viable proposals of the State Government which must conform to the National Policy and plan priorities as well as the lending strategy and priorities of the donors.

So far, the size of the EAPs portfolio in Bihar is not sufficient enough to enable them to draw foreign loan on a large scale.
