(a) whether it is a fact that certain chemical formulations like DDT, etc. are banned for production and use in several countries of the world;

(b) if so, the details thereof;

(c) whether it is a fact that even though these chemical formulations are banned the world over, India is using the same;

(d) if so, the reasons therefor;

(e) the health hazard posed by use of such banned chemicals;

(f) whether any action is contemplated against the officials who have failed to stop use of such health hazard formulations; and

(g) if so, the details thereof and if not, the reasons therefor?

THE MINISTER OF STATE OF THE MINISTRY OF CHEMICALS AND FERTILIZERS (SHRI SHEES RAM OLA):

(a) to (g) Different countries ban/ restrict the use of certain pesticides for different reasons such as negative health effects, non acceptability of such pesticides due to climatic conditions peculiar to a country, emergence of pest resistance to pesticides etc. In India import, manufacture, sale, transport, distribution and use of insecticides is regulated under Insecticides Act, 1968 and the rules made thereunder. The Registration Committee constituted under the Act register the pesticides after satisfying itself with regard to various parameters of chemistry, bio-efficacy, toxicity, residue, packaging, labelling etc. The pesticides, insecticides which are banned or severely restricted in other countries are also reviewed for their continued use or otherwise in the country by Expert Committees which are constituted from time to time. In India the use of DDT has been banned in the agriculture sector since 1989. It is being used for mosquito control under Malaria Eradication Programme of the Ministry of Health.

The question of taking any action against officials does not arise in view of what has been stated in the preceding para.
