3. The commitment of the State Government to take over the responsibility should be obtained prior to sanction of the Centre.

4. The University should give its commitment to provide the required infrastructural and other support.

5. The Centre should have a core faculty of one Director (Professor scale), two Assistant Directors (Reader's scale) and three Project Officers (Lecturer's scale). These should be provided in phases after performance appraisal.

6. All faculty positions should be on a contract basis.

7. There should be an Advisory Committee which should include State Government Officers.

8. There should be continuous monitoring and performance evaluation.

9. The UGC should provide funding for starting a journal to disseminate the findings of the Women's Studies projects.

10. The Cells set up in the colleges have not proved very successful and these may be discontinued.
