

Demand of Power by the Eighth Five Year Plan

3823. SHRI S. S. SURJEWALA: Will the Minister of POWER be pleased to state:

(a) what is the projected demand of power in the country by the end of Eighth Five Year Plan as assessed/likely to be assessed by a sub-committee of National development Council;

(b) what are the targets of power generation during the said plan period;

(c) what steps Government have proposed to bridge the gap of demand and supply of power in the country by the end of this plan;

(d) whether the Power Ministers Conference has taken a decision to rationalise the rates of power tariff in the country; and

(e) if so, the details may be stated and whether the Govt. propose to enforce single tariff system in agriculture sector and to enforce the uniform power tariff for industry/domestic/commercial?

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRI P. V. RANGAYYA NAIDU): (a) and (b) The projected demand for power in the country in 1996-97 is 416274 Mkw (Energy) and 73656 MW (Peakload). A Capacity Addition Programme of 30,537.7 MW has been envisaged for the 8th Five Year Plan.

(c) To bridge the gap between demand and supply of power in the country, Government have initiated various steps which includes increasing the Plant Load Factor (PLF) of the Thermal Power Plants, renovation, modernisation and uprating of power plants, reduction of transmission and distribution (T&D) losses, efforts to establish a National Power Grid for optimising inter-State and inter-Regional exchanges of power, Energy conservation and private sector participation.

(d) and (e) The Action Plan adopted by the Power Ministers' Conference held in January 1993 includes, *inter-alia*, implementation of a minimum rate of agricultural tariff of 50 Paise per Kwh. There is no proposal to enforce a country wide uniform power tariff in industry, domestic and commercial sectors.
