Facilities in 'Unauthorised Colonies in Delhi

(d) if not, the reasons therefor?

6181. SHRI GOPALRAO VITHALRAO PATIL: Will the Minister of URBAN DEVELOPMENT be pleased to state:

(a) the number and names of the unauthorised colonies authorised as on 1st January, 1994 in Delhi;

(b) by when water and sewerage facilities are likely to be provided in these colonies;

(c) whether Government propose to provide free of cost essential facilities in these colonies under the scheme of health for all; and

THE MINISTER OF STATE IN THE MINISTRY OF URBAN DEVELOPMENT (SHRI P. K. THUNGON): (a) As reported by the Municipal Corporation of Delhi, the details of unauthorised colonies regularised are as per Annexure. [See Appendix 170, Annexure No. 121]

(b) According to the Delhi Water Supply and Sewage Disposal Undertaking, under the existing policy, services are provided in such colonies on the payment of development charges. It is, therefore, not possible to predict by when services will be provided in these colonies.

(c) No, Sir.

(d) The Policy is to provide service in these colonies on the payment of development charges.

Development of Peripheral Towns of NCR

61628 SHRI SIKANDER BAKHT: Will the Minister of URBAN DEVELOPMENT be pleased to state.

(a) whether it is a fact that peripheral towns in the National Capital Region like Ghaziabad, Noida, Gurgaon and Faridabad and others are being developed to decongest Delhi;

(b) if so, to what extent it has helped contain congestion in Delhi; and

(c) in what way the planned development of the capital city has checked —(a) encroachment of Government land; (b) the mushrooming of unauthorised Jhaggi-clusters, (c) the migration of rural population to Delhi and (d) the regular conversion of residential areas to commercial complexes?

THE MINISTER OF STATE IN THE MINISTRY OF URBAN DEVELOPMENT (SHRI P. K. THUNGON): (a) The Regional Plan-2001 for the Development of National Capital Region, which came into force on 23.1.1989, aims at:—

(i) containing the growth of National Capital Territory of Delhi within a manageable population size of 112 lakhs by 2001 AD;

(ii) moderate growth of 6 towns in Delhi Metropolitan Area (DMA) to accommodate a total population of 33 lakhs by 2001 AD; and

(iii) Accelerated growth of 8 Priority Township Complexes outside DMA to accommodate a population of 20.36 lakhs by 2001 AD and planned development of 34 sub-regional centres and 5 per in NCR Counter Magnet Areas,

(b) and (c) The Regional Plan-2001 aforesaid is long-term in nature. It is too early to assess its impact. One preliminary indication in this connection is that, for the first time in the last 3 decades, the population growth rate of Delhi has shown a declining trend. It will be possible to assess its impact as regards mitigation to migration of rural population to Delhi, encroachment on Government land, mushrooming of unauthorised jhuggi clusters and conversion of residential areas to commercial use, only after the year 2001. However, the prevention and removal of encroachment on Government land and of the conversion of residential areas to commercial use is a continuing activity of the Municipal Corporation of Delhi, New Delhi Municipal Committee, Delhi Cantonment Board, DDA and L and DO. The action taken by these agencies in this regard is as per the statement enclosed.
