THE DEPUTY MINISTER IN THE MINISTRY OF HUMAN RESOURCE DEVELOPMENT (DEPTT. OF EDUCATION AND DEPTT. Education in schools run by local bodies and private aided institutions is mostly free in the States/UTs. However, private unaided schools which constitute 3.7% of the total elementary education schools in the country, do charge fee. Beyond elementary stage, the position differs from state to state.

14 States and 4 Union Territories have passed Acts making primary education compulsory. While these States have enacted legislation to make education compulsory, they have desisted from prescribing the rules and regulations whereby those provisions can be enforced on account of various socio-economic compulsions that keep children away from schools. To attract children and retain them in school system, Government have initiated schemes such as Operation Blackboard, Establishment of District Institutes of Education- & Training, Strengthening of non-formal centres etc. together with adoption of child centred and activity based process of leaving at primary stage to make school environment better.
