Increase in Prices of Fertilizers

@@ 3802. SHRI ANANTRAY DEVSHANKER DAVE: Will the Minister of AGRICULTURE be pleased to state:

(a) what are the reasons for increase in price of fertilisers by Government in a very short span;

(b) whether it is a fact that on the announcement of hike in price-rise Government co-operatives, institutions and other group of societies have a good stock of various category of fertilisers on the same day, if so, what are the details thereof; and

(c) what is the hike in price by Government in Urea, Potassium, Ammonia and D.A.P. average packing weight together with the reasons therefor?

@For Project formulation

@@Previously Unstarred Question 2614

Transferred from 10th December, 1992.

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI MULLAPPALLY RAMACHANDRAN): (a) In order to reduce the fertiliser subsidy burden on the exchequer, the Government, inter-alia, accepted the recommendations of the Joint Parliamentary Committee (JPC) on Fertiliser Pricing to decontrol the price, distribution and movement of phosphatic and potassic fertilisers.

(b) The record of stock position of fertilisers held by State institutional agencies is not maintained on day to day basis, but is maintained as at the beginning of each cropping season. A Statement indicating the estimates of stock of fertilisers held by State institutional agencies as on 1st October, 1992 is enclosed, (see below.)

(c) There is no hike in price by Government in average packing weight of nitrogenous fertilisers including Urea whereas the potassic and phosphatic fertilisers have been decontrolled.

Wheat Production

3803. SHRI KRISHAN LAL SHARMA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether it is a fact that the agriculture scientists of the country have evolved new methodology and strategy to increase wheat production;

(b) if so, the details of new strategy; and

(c) the name of the States in which the *new strategy* is being implemented and results achieved so far?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI K.C. LENKA): (a) Yes, Sir.

(b) A number of new recommendations are made from time to time for increasing productivity in different parts of the country. Some of the latest varieties/practices are as follows:

(i) Identification of GW-170 and GW-193 for irrigated low productivity regions of Central India.

(ii) HI 8381 and PDW 215 to produce durum wheats of export quality.

(iii) K-8962 to increase productivity from Diara lands of North Eastern Region of the country.

(iv) An increase of seed rate by 25% to increase productivity in the North Eastern Region.

(c) The following varietal/general recommendations made in the recent past have been adopted on a large scale in the States indicated and have resulted in higher wheat production.

(i) HUW-206, HUW-234, K-8079 in Eastern U.P. and Bihar.

(ii) PDW-215, CRNN-3004 and WH-542 in Punjab, Haryana and Western U.P.
