67. DR. RATNAKAR PANDEY: Will the PRIME MINISTER be pleased to state:

(a) whether it is a fact that despite the legal ban on charging of capitation fees from students at the time of admission, a huge amount of capitation fee is charged from students by most of the private engineering and medical colleges in some of the States; and

THE MINISTER OF STATE IN THE MINISTRY OF SCIENCE AND TECHNOLOGY (PROF. M. G. K. MENON): (a) and (b) The Central Government and the All India Council for Technical Education have been urging the State Governments to take appropriate action to prevent charging of capitation fee for admission to technical institutions. AICTE Act also provides for steps to prevent commercialisation, of technical education.

Some of the States where capitation fee had been prevalent—Andhra Pradesh, Bihar, Karnataka and Maharashtra—have since passed State Acts to ban capitation fees. These States have also informed that capitation fee is no longer being charged. However, at present there is no legislation in Tamil Nadu banning capitation fee and as per the information from the State Government capitation fee is being collected by private colleges under the guise of donation.

In so far as medical education is concerned, a Bill to amend the Indian Medical Council Act, 1956 has been introduced in the Rajya Sabha. This Bill, however, is yet to be approved by the Parliament.
