Chlorine manufacturing factories

1578. DR. RATNAKAR PANDEY:

SHRIMATI RATAN KUMARI:

Will the Minister of INDUSTRY be pleased to state:

(a) whether it is a fact that there are at least 100 chemical factories in the country which are manufacturing the commonly used chlorine gas that could repeat disaster of Bhopal scale in the event of an accident as per study conducted by Central Labour Institute;

(b) if so, what are the details in this regard; and

(c) what preventive measures Government propose to take in this regard?

THE MINISTER OF INDUSTRY (SHRI J. VENGAL RAO): (a) Yes, Sir, there are a large number of units in the country which are manufacturing chlorine as a co-product of caustic soda, however, the Bhopal Gas tragedy was not on the basis of leakage of chlorine but of Methyl Isocyanate (MIC) Gas. As per information received from Ministry of Labour, no such study has been conducted by the Central Labour Institute.

(b) The question does not arise.

(c) All manufacture and storage of chlorine and other hazardous products is regulated by the rules and guidelines prescribed by the agencies of the Ministry of Labour and the Ministry of Environment & Forests, who also monitor their implementation.
