- (a) whether Government is considering a formula to divide the width of road as per requirement of traffic;

THE MINISTER OF STATE IN THE MINISTRY OF ROAD TRANSPORT AND HIGHWAYS (SHRI R.P.N SINGH): (a) to (d) The capacity of the road for different lane width is already prescribed in terms of passenger car units (PCUs). Capacity augmentations of existing road by way of providing four lane / six lane are done based on the norms so prescribed. As per the norms, a 2- lane Road is due to for 4 lane once the traffic exceeds 15000 PCUs per day. The rational norms for widening from 4 lanes to 6 lanes etc. are also similarly prescribed. The work of actual capacity augmentation, however, depends upon availability of funds and *inter se priority*. The existing norms are not adversely impacting the road network advancement.
