(a) by when a vaccine against swine flu would be available in the country; and
(b) the reasons for the unavailability in our country when it is already available in some other countries?

THE MINISTER OF HEALTH AND FAMILY WELFARE (SHRI GHULAM NABI AZAD): (a) and
(b) Ministry of Health and Family Welfare is working on a two step strategy. Development of pandemic vaccine by indigenous manufacturers is being encouraged. Three companies are working towards this and it is expected that clinical trials would start in January 2010. If all goes well, indigenous vaccine would be available by June 2010.

To cover the interim period, Government of India is importing pandemic vaccine to vaccinated the high risk group. This vaccine would be available by December 2009. It would only be used after a bridging study, to establish their safety and reactogenicity in Indian population hence the time lag as compared to some other countries.

Exodus of faculties from AIIMS

508. SHRI TIRUCHI SIVA:

SHRI SANTOSH BHAGRODA:

SHRI KALRAJ MISHRA:

Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) the details of faculty members of the All India Institute of Medical Sciences (AIIMS) resigned during last three years, discipline-wise;
(b) whether the issue has been discussed by the Governing body of the AIIMS;
(c) if so, when it was discussed and what was the outcome of such discussion; and
(d) if not, the reasons for not discussing such mass exodus of the faculties?

THE MINISTER OF HEALTH AND FAMILY WELFARE (SHRI GHULAM NABI AZAD): (a) 11 (Eleven) faculty members have resigned from the service of the Institute during the last three years. The details may be seen at Statement (See below).

(b) and (c) No.

(d) Since there was no mass exodus, it was not felt necessary to discuss this by the Governing Body.

Statement
List of faculty members who have resigned from the service of AIIMS during the last three years from 01.01.2007 till date:

<table>
<thead>
<tr>
<th>Sl. No.</th>
<th>Name and designation</th>
<th>Department/Discipline</th>
<th>Date of resignation</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Dr. S. Dwarkanath, Assistant Professor</td>
<td>Neurosurgery</td>
<td>16.04.2007</td>
</tr>
</tbody>
</table>
2. Dr. S. Ramamurthy,
   Additional Professor  
   Cardiology  
   16.06.2007 

3. Dr. S. Anandaraja, Assistant Professor 
   Cardiology  
   24.07.2007 

4. Dr. D. Prabhakaran, Additional Professor 
   Cardiology  
   24.09.2007 

5. Dr. V.K. Arora, Professor 
   Pathology  
   01.10.2007 

6. Dr. Rakesh Agarwal, Professor 
   Gastroenterology  
   08.10.2007 

7. Dr. Rajat Kumar, Professor 
   Hematology  
   12.04.2008 

8. Dr. Manju Aron, Associate Professor 
   Pathology  
   17.06.2008 

9. Dr. Prasoon Kant Shamsierry, 
   Assistant Professor 
   Orthopedics  
   03.10.2008 

10. Dr. Sumit Singh, Associate Professor 
    Neurology  
    01.10.2009 

11. Dr. K.K. Handa, Associate Professor 
    E.N.T.  
    31.10.2009 

Expenditure of children healthcare
509. SHRI MAI T. RATNA BABU: Will the Minister of HEALTH AND FAMILY WELFARE be
pleased to state:
   (a) what is the status of human health in the country;
   (b) the details of such status, children, women and men-wise; and
   (c) the amount spent on children healthcare in the country as a percentage of GDP?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRI
DINESH TRIVEDI): (a) and (b) Some of the important indicators that reflect the status of human
health in the country include (i) Life expectancy at birth, (ii) Infant Mortality Rate, (iii) Crude Death
Rate, (iv) Maternal Mortality Ratio (MMR). The Table below captures the latest available data in
respect of these parameters for the country:

<table>
<thead>
<tr>
<th>Indicators</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Life Expectancy at Birth (2002-06)</td>
<td>Male - 62.6</td>
</tr>
<tr>
<td></td>
<td>Female - 64.2</td>
</tr>
<tr>
<td>Infant Mortality Rate (IMR) (per 1000 live births) (2008)</td>
<td>Male - 52</td>
</tr>
<tr>
<td></td>
<td>Female - 55</td>
</tr>
<tr>
<td></td>
<td>Total - 53</td>
</tr>
<tr>
<td>Crude Death Rate (CDR) (per 1000 population) (2008)</td>
<td>Male - 8.0</td>
</tr>
<tr>
<td></td>
<td>Female - 6.8</td>
</tr>
<tr>
<td></td>
<td>Total - 7.4</td>
</tr>
<tr>
<td>Maternal Mortality Ratio (MMR) (per 100,000 live births) (2004-06)</td>
<td>254</td>
</tr>
</tbody>
</table>
