(c) As per statement enclosed.

#### Statement

The present water supply in Delhi is 397 MGD against the assessed requirement of 472 MGD. The projected requirement is expected to increase to 592 MGD by 1990 and to achieve the production of 592 MGD the following works have been proposed: —

(i) Construction of additional Ranney wells to yield 23 MGD.

(ii) Construction of additional 100 MGD Water Treatment Plant at Haider-pur.

This proposal is based on the exchange of sewage effluent from the Okhla Sewage Treatment Plant for raw-water with the Government of Haryana. Tenders have been received for the work and are under scrutiny. The work will be taken-up only after the concurrence of the Haryana Govt, for which consistent efforts are being made.

(iii) (a) Setting up of additional 40 MGD Water Treatment Plant at Wazirabad.

This proposal is based on supply of sewage effluent to the CPWD for gardening purposes; in Delhi in exchange of raw-water which the CPWD at present pumps from the river Yamuna. Tenders have been received for the work and are under scrutiny.

(b) Construction of 20 MGD Water Treatment Plant at Wazirabad. Raw-water for this proposals shall be available by saving in transit losses on account of re-routing of indented water from existing share of 0.2 MAF in Bhakra Beas Storage System. This proposal would also require the concurrence of Haryana Government.
