(b) to (e) Public Sector Banks organise credit camps in different parts of the country at the initiative of field functionaries as a part of the overall measures taken by them to increase the flow of credit to the weaker section—in line with the targets laid down for such credit deployment. Since no central monitoring of such credit camps is considered feasible or necessary by the Reserve Bank of India the present data reporting system does not yield separate detailed information in respect of the credit camps or the amounts and particular types of loans disbursed through them. At the same time as per Reserve Bank of India's guidelines from time to time, banks have to follow well-defined procedures for identification, scrutiny, appraisal, liberalised terms and conditions for margin money, security, etc as well as repayment schedules for bank loans channelled towards the 'weaker sections'.
