

Installation of Electronic equipment in Banks

913. SHRIMATI MONIKA DAS: Will the Minister of FINANCE be pleased to state:

(a) whether it is a fact that Government have issued instructions to all the Chairmen of the nationalised banks to install sophisticated electronic equipment as a safeguard against robberies;

(b) whether these instructions have been carried out in all the branches;

(c) if not, what are the reasons therefor;

(d) whether some of the branches have ignored the instructions and have installed equipments which do not conform to the standard; and

(e) if so, what action Government have taken against the management of such banks?

THE DEPUTY MINISTER IN THE MINISTRY OF FINANCE (SHRI JANARDHNA POOJARY): (a) to (e) Government had advised all public sector banks to tighten security measures in their office premises. One of the measures suggested was the Provision of alarm system in metropolitan areas and also vulnerable branches in the District towns and other important towns. The Working Group, which was set up under the Chairmanship of former Finance Secretary, had also, *inter alia*, recommended in its Report that banks should arrange for introduction of deterring factors such as alarm system, posting of armed guards etc. The Report of the Working Group was forwarded to all banks for implementation. The exact security measures to be adopted in a bank office have, however, to be decided by the concerned bank managements in the light of the degree of vulnerability of a particular office. The banks have accordingly undertaken a phased pro-

gramme of strengthening the existing security« arrangements in their offices. Since no particular specifications have been laid down for any arrangement, the question of violation thereof does not arise.
