(c) The policy envisages to ensure rederly and balanced spread-over of inancially sound and viable units of the co-operative banking industry in the entire country so as to avoid either proliferation of banks without adequate scope or unhealthy competition amongst primary urban co-operative banks. With this objective in view the RBI has been laying complasis on each such bank to have a compact well-defined and demarcated area of operations which has adequate potential to make the institution viable.

Delay in completion of NALCO project

1003. SHRI SURESH PACHOURI: Will the Minister of STEEL. MINES AND COAL be pleased to refer to the answer to Unstarred Question 529 given in the Rajya Sabha on the 26th July, 1964 and state:

(a) whether the revised cost of the National Aluminium Company project has been finalised; if so, what are the details thereof; and

(b) by when the production will start?

THE MINISTER OF STEEL, MINES AND COAL (SHRI VASANT SATHE): (a) The revised cost estimatts submitted by National Aluminium Company (NALCO), are under examination of the Government.

(b) The baaxie mine is likely to be commissioned in November, 1985 while the Alumina and the Aluminium Planie in September, 1986 and December, 1986 respectively.

Import of Steel

1004, SHRT SURESH PACHOURI: Will the Minister of STEEL, MINES AND COAL be pleased to state:

(a) whether it is a fact that Government have allowed import of steel during the current financial year:

(b) if so, what are the reasons therefort and

(c) what steps are being taken by Government to overcome the shortage of steel? THE MINISTER OF STATE IN THE DEPARTMENT OF STEEL (SHRI K. NATWAR SINGH); (a) to (c) Import of steel is a normal feature and regulated through the Import policy. Imports are resorted to where justified on account of inadequate domestic availability of definite grades, specifications and sizes.

Efforts are made to maximize domestic production through developmental efforts and higher utilisation of existing capacitics by proper maintenance and inputs of the desired quality.

As a long-term measure output of steel in the country is likely to increase as a result of technological upgradation of existing places and creation of fresh capacities.
