Generation (Million Units)	82,495	1,63,395	1,24,608

(b) The generation in the Tenth Plan (90354 Million units) exceeded the target (82495 Million units). With respect to capacity addition in the Tenth Plan there was a shortfall of 220 MW which was achieved on May 6, 2007, that is a very small delay of about 5 weeks.

The achievements of Tenth and Eleventh Plan (first three years) have been:

Achievement	Tenth Plan (first three years)	Eleventh Plan
Capacity Addition (MW)	1080	440
Generation (Million Units)	90,354	50,714

(c) The shortfall in generation in Eleventh Plan has been on account of non availability of fuel from domestic sources in the required quantities.
