

(b) and (c) Instances of illegal mining of minerals have come to the notice of the Government in the State of Jharkhand. The Central Government has amended the Mines and Minerals (Development and Regulation) Act, 1957, to empower the State Governments to take action against illegal mining by giving them powers to enter and inspect any mine, penalize transportation and storage of illegal mined materials, confiscate illegally mined minerals, tools, equipment and vehicles, and frame separate Rules under the Mines and Minerals (Development and Regulation) Act, 1957 for curbing illegal mining. This was followed by regular monitoring by Central Government of the action taken by the State Governments. Recently, all the State Governments have been requested to prepare an Action Plan using modern technology to curb illegal mining. Further, a Coordination-cum-Empowered Committee has been set up to ensure elimination of delays in grant of mineral concessions. A draft State Mineral Policy has also been circulated to all the State Governments. Further as per available information, the State Government of Jharkhand have detected 222 cases of illegal mining of major/minor minerals involving an area of 8.06 hect. and 45 acres. 106 nos. of transport vehicles have been seized. 168 FIRs have been lodged. 4 nos. of court cases have been filed and a total of Rs. 26.152 lakhs has been realized as fine.
