

(c) whether it is also a fact that Government have referred the matter to the National Drug Council; and

(d) if so, what is the function and responsibility of the Council in such matters and the reason why the statutory authority of Government was not applied and instead the matter was passed on to an Advisory Body?

THE MINISTER OF CHEMICALS AND FERTILIZERS (SHRI VASANT SATHE): (a) Paragraph 21 of 1978-Drug Policy required, *inter-alia* foreign drug companies producing drug formulations based on imported bulk drugs to manufacture such bulk drugs from basic stage within a period of two years.

(b) to (d) In the absence of any provisions under the Industries (Development & Regulation) Act, 1951 to call back the industrial licences already issued and impose fresh conditions thereon, the above mentioned policy decision cannot be implemented in full till the amendment of the said Act.

Amendments have been proposed for the purpose. However, in cases where foreign companies have applied for recognition of installed capacities under September, 1980 Policy production from basic stage is now being stipulated as a condition subject to techno-economic feasibility and the other objectives of the Drug Policy. Where the bulk drug is licensable, foreign companies have been licensed. In some cases, licences could not be given because of conflict with other parameters of the Policy.

The National Drug and Pharmaceuticals Development Council (NDPDC) is expected to discuss shortly the reports submitted by 3 Working Groups set up by it. The Government intends to make the necessary changes, if any, in the 1978

Drug Policy after receipt and consideration of the recommendations of NDPDC.
