

**Literacy rate of SCs/STs**

2274. SHRI R.N. ARYA: Will the Minister of HUMAN RESOURCE DEVELOPMENT be pleased to state:

(a) whether the literacy rate of Scheduled Castes and Scheduled Tribes is far below the national literacy rate;

(b) if so, the action being taken to improve the literacy rate of these communities, indicating the total amount of funds earmarked for the purpose in the Eighth (1992-1997) and Ninth Five Year Plan (1997—2002) as compared to the total plan outlays of the Ministry of HRD, both in actual and percentage figures; and

(c) the total funds earmarked for the Education Sector in both the Five Year Plans and out of that, the amount of funds exclusively earmarked for educational empowerment of SCs/STs?

THE MINISTER OF HUMAN RESOURCE DEVELOPMENT (DR. MURLI MANOHAR JOSHI): (a) Yes, Sir. The NSSO Survey (53rd Round) shows that the general literacy rate for India has moved up to 62%. However this survey does not give the disaggregated figures for SCs/STs. The literacy rate of Scheduled Castes and Scheduled Tribes, in the country, as per 1991 Census was 37.41% and 29.60% respectively, as compared to the general literacy rate of 52.21%.

(b) and (c) In the literacy campaigns the Scheduled Castes and Scheduled Tribes are specially targeted. These campaigns reach out to areas of the country which are most backward, illiterate and poverty stricken. Areas of Scheduled Caste and Scheduled Tribe concentration are covered on a priority basis and these groups are invariably accessed to a greater degree.

The Specific steps being taken by the Government to improve literacy among Scheduled Castes and Scheduled Tribes include;

Funding of Literacy projects by Central and State Governments in the ratio of 4:1 for Tribal districts as against 2:1 for other areas; opening of primary schools on priority basis; development of instructional material in tribal languages at the initial stages;

establishment of hostels, residential schools, provision of scholarships and freeships; launching of District Primary Education Programme in backward districts with low female literacy rates.

The three pronged strategy for increasing literacy in the country consists of:

- (i) Universalisation of Elementary Education;
- (ii) Non-Formal Education for School Drop-Outs in the age group of 9-14 years; and
- (iii) Literacy Campaigns & Continuing Education Programme of the National Literacy Mission for adult learners.

Three statements mentioning the Outlay of 8th and 9th five year plans for Literacy, Education and the funds released for SC/ST components are Annexed.
