

Isordil (for treatment of heart ailment) of M/s. Geoffrey Manners were reported to my Ministry. In such cases of shortages, equivalent formulations of other companies are available.

Shortage of 'Aldomat' was due to industrial relations problem in the factory of M/s. NSD since early August 1983. On advice from my Ministry, IDPL and M/s. Dey's Medical Stores rushed supplies of their respective equivalent formulations, Emdopa and Meldopa to reported areas of shortages. M/s. MSD have since informed that the problem in their factory is now over and they have again started regular production of Aldomat tablets from 1-12-1983.

The shortage of Isordil is of temporary and localised nature and its equivalent formulation 'Sorbitrate' of M/s. Nicholas is available in the market.
