

(b) The operational position of the services of route No. 840 is quite satisfactory. Relatively, the trip-missing on route No. 71 which is mostly operated by Private Operators' buses is somewhat high. The trips are missed due to non-reporting of private buses for duty without prior intimation and their frequent breakdowns on line. Action is taken for not giving prior information in case of non-reporting of the bus for duty against the operator in terms of the agreement. The concerned Private Operators have also been asked to improve the operational efficiency.
