As a matter of fact, there has been an urge, a request, from several linguistic groups like Rajasthani, Mani-puri, Dogri, Nepali and also Maithili for including them in the Eighth Scheme. I
With these few words, I would request the hon. Member to withdraw the motion.

SHRI HAREKRUSHNA MALLICK: There is one point, Sir. The Minister has said that Hindi should be enriched, but Hindi or any other language of India cannot be enriched at the cost of any other language. I want to ask the Hon. Minister to give us a list of words and expressions that the Hindi language has adopted from any of the South Indian languages. He may lay this information on the Table of the House at any time he likes. For example, English is a foreign language. *(Interruptions)*. For the sake of the party that is in power they are forgetting their identity, but I am thinking of the entire country. I am asking only one question, that is, how many words, expressions or letters have been adopted by Hindi language from any of the South Indian languages. What I want to say is, no longer can any language be used as a leverage. We cannot accept dominance of one language over the other.
