

Directors) of public limited companies and of such private limited companies as are subsidiaries of public limited companies. These form a very insignificant proportion of the total number of employees in the Corporate Sector. There is, at present no provision in the Companies Act to regulate the remuneration of other employees in the private sector. The question whether Companies Act should be amended to bring the remuneration payable to its other Senior Executives (other than Managing Directors and Whole-time Directors etc.) also within the ambit of Companies Act, though income ceilings, is still under consideration of the Government.

STATEMENTS BY MINISTERS

I. Correcting the reply given in the Rajya Sabha on the 21st December, 1981 to Starred Question 406, regarding State Electricity Boards.

THE MINISTER OF STATE IN THE MINISTRY OF ENERGY (SHRI VIKRAM MAHAJAN): Sir, in the statement laid on the Table of the House in reply to Starred Question No. 406 dated 21st December, 1981 some discrepancies had crept in the figures relating to capacity utilisation of thermal plants in respect of certain States Electricity Boards.

The correct position is as under:—

1. Gujarat State Electricity Board.—The capacity utilisation of thermal plants for the years 1978-79, 1979-80 and 1980-81 is 51.3%, 47.1% and 50.0% instead of 53.0%, 48.4% and 51.1% respectively.

2. Maharashtra State Electricity Board.—The capacity utilisation of thermal plants for the years 1978-79, 1979-80 and 1980-81 is 56.9%, 52.6% and 52.8% instead of 62.1%, 55.0% and 54.2% respectively.

3. Rajasthan State Electricity Board.—There is no thermal plant with the Board.

4. Tamil Nadu State Electricity Board.—The capacity utilisation of thermal plant for the year 1978-79, 1979-80 and 1980-81 is 44.0%, 33.5% and 34.5% instead of 45.8%, 38.8% and 45.5% respectively.

5. Uttar Pradesh State Electricity Board.—The capacity utilisation of thermal plant for the years 1978-79, 1979-80 and 1980-81 is 42.5%, 40.2% and 36.5% instead of 46.4%, 43.8% and 39.6% respectively.

6. West Bengal State Electricity Board.—The capacity utilisation of thermal plant for the year 1978-79, 1979-80 and 1980-81 is 48.8%, 42.4% and 42.1% instead of 46.0%, 43.5% and 43.0% respectively.

SHRI MANUBHAI PATEL (Gujarat): A point of order. Corrections, I can understand. In the past also it was explained. But large corrections and that too by one, two, three Ministers, are going to be made today. Once the House has already appointed the Committee on Papers Laid on the Table of the House...

MR. DEPUTY CHAIRMAN: That will be looked into.

SHRI MANUBHAI PATEL: All these corrections, the Committee will look into because there is undue delay and the Minister has not said anything. That should be referred to the Committee.
