

- Treatment of severe acute malnutrition through Nutrition Rehabilitation Centres (NRCs) set up at public health facilities.
 - Specific Programme to prevent and combat micronutrient deficiencies of Vitamin A and Iron & Folic Acid through Vitamin A supplementation for Preschool Children, pregnant and lactating women. Iron and folic acid syrup has been added in the programme for children 6 to 60 months.
3. National Iodine Deficiency Disorders Control Programme (NIDDOP).
 4. Nutrition Education to increase the awareness and bring about desired changes in the dietary practices including the promotion of breast feeding and dietary diversification.
 5. Integrated Child Development Service Schemes (ICDS) including supplementary nutrition.
 6. National Programme of Nutritional support to Primary Education (Mid-day Meal Programme).
 7. Improving agricultural and horticultural produce.
 8. Improving the purchasing power of the people through various income generating scheme and availability of essential food items at subsidized cost through Targeted Public Distribution System.

Rise in Dengue/Malaria cases

2494. SHRI T.M. SELVAGANAPATHI: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

- (a) whether it is a fact that dengue, malaria, etc. were on the rise in all parts of the country;
- (b) if so, the details thereof and the action proposed by Government to tackle these diseases;
- (c) whether it is also a fact that platelet shortage hits dengue treatment across the country; and
- (d) if so, the steps taken by Government to meet the shortage of platelets?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRI DINESH TRIVEDI): (a) and (b) No. During the last three years, the number of reported cases of Malaria in the country have remained at around 1.5 million. The number of reported cases of Dengue have increased in some States whereas many States have reported no cases of Dengue. The total number of cases of Malaria and Dengue reported in the country, State-wise, during the last three years are given in the Statement (See below). For prevention, treatment and control of vector-borne diseases including Dengue and Malaria in the country, Government of India is implementing National Vector borne Disease Control Programme (NVBDPC) under the overarching umbrella of National Rural Health Mission (NRHM). The main components of the strategy for NVBDPC are integrated vector control, early case detection & complete treatment, and behavior change communication.

Government of India provides technical support and also supplements the States by providing funds and commodities as per their annual requirements approved under NRHM. However, the programme is primarily being implemented through the State Governments.

(c) No.

(d) Does not arise.

Statement

Number of cases of Malaria and Dengue reported in the country during the last three years and the current year
