Destruction of counterfeit money

1342. DR. RAFIQ ZAKARIA: Will the Minister of FINANCE be pleased to state:

(a) whether Government's attention has been drawn to a report published in the "Hindustan Times", dated July 25, 1980, regarding destruction of both black money and counterfeit money;

(b) if so, what is the nature of this counterfeit money and how is it circulating; and

(c) what steps Government are taking to destroy this counterfeit money?

THE DEPUTY MINISTER IN THE MINISTRY OF FINANCE (SHRI MANGANBHAI BAROT): (a) Yes, Sir.

(b) and (c) Counterfeit money in this context appears to mean fake notes. According to the information received from the Central Bureau of Investigation the total number of fake note cases registered in the country during the period from 1-4-1979 to 31-3-80 was 295.

The law provides for deterrent punishment for offences relating to counterfeiting of currency notes. The State Police authorities keep a constant vigil in this regard and organise raids on information about counterfeiting being done by any person. The Central Bureau of Investigation also keeps the problems of counterfeiting of currency under continuous study by keeping records of different techniques adopted and by reviving periodically the appearance of counterfeit Indian currency. A 'Cell' has also been created in their Economic Offences Wing to undertake investigations of serious offences of counterfeiting currency and

co-ordinate the investigations in the States.

Black-money, which is different from counterfeit money, refers only to the amount of income which though taxable, is not disclosed to the tax authorities for purposes of taxation. The Government are generally aware of the increase in black-money over the years. The Government propose to curb the growth of black money through multi-pronged action of more effective implementation of tax laws and launching drive against hoarding and profiteering.
