

made by the manufacturers. A Standing Committee on Soda Ash consisting of representatives of different Government Departments, major consumers of Soda Ash and manufacturers of Soda Ash has also been appointed. Which periodically reviews the production, availability and distribution of Soda Ash.

*In the case of Caustic Soda:*

In spite of adequate installed capacity in the country, indigenous production has been adversely affected because of severe power cuts imposed in different States. Caustic Soda has therefore been put on the Open General Licence (OGL) thereby making it possible for any actual user to import the chemical directly if he wishes to do so. The Ministry has also arranged for imports of 15,000 tonnes of Caustic Soda solid through CPC. Customs duty on this was waived in full. The CPC have also been authorised to import an additional quantity of 5,000 tonnes of Caustic Soda flakes and this quantity would also enjoy exemption from customs duty.

This Ministry has also decided to import an additional quantity of 25,000 tonnes of Caustic Soda through the CPC during the coming months depending on the requirements of actual users particularly the Public Sector Undertakings and small scale units. Exemption from customs duty on the import of this additional quantity of 25,000 tonnes will, however, be partial. A basic customs duty of 15 per cent *ad valorem* and auxiliary customs duty of 5 per cent *ad valorem* will be chargeable on these imports.
