

(v) House building loan should be given.

**(II) SELECTION GRADE SHOULD NOT BE DISCONTINUED:**

The provision of selection grade was made by the University for those employees who do not have any avenue of promotion. If this is discontinued, these staff members will stagnate for their life time and which will lead to frustration amongst these employees. A good number of staff members are availing this facility for more than 2 years.

**(III) REGULARISATION OF DAILY WAGE WORKERS:**

Many daily wage employees are working in this University continuously for as many as 4<sup>5</sup> years. Their continuation is ample evidence that their services are required by the University and they are sincere workers. It is demanded that their services should be regularised according to their seniority in J.N.U.

**(IV) CREATION OF MORE POSTS:**

The work load for certain categories of staff had increased tremendously. Hence it is requested that more posts should be created in these categories so that University work may not suffer.

(V) 20 per cent of posts of Chowki-dars, Sweepers and Mess Helpers and Cooks should be converted into the Hawldars, Sanitary Guides and Head Butlers and Head Cooks respectively as is already in practice in Delhi University and other Central Universities.

(VI) Minimum qualification for Library/Laboratory Attendants for a departmental promotion should be 8th pass. This qualification is in practice in Banaras Hindu University.

(vii) Tericot uniform should be provided to all employees who are entitled to get a uniform. The tericot uniform has been provided in many organisations for this type of staff members.

(VIII) The Group Insurance Scheme which is already implemented in Government of India should be implemented for all karmacharis of the University.

**(IX) HEALTH CENTRE OF THE CAMPUS:**

JUN Campus does not have any medical facility for its employees. It is demanded that CGHS dispensary should be opened immediately on the Campus. In case it is not possible, one health centre for the staff with all the facilities should be opened.

320. SHRI L. R. NAIK:

SHRI KISHANLAL SHARMA: SHRI KALP NATH RAI:

THE MINISTER OF AGRICULTURE AND IRRIGATION (SHRI SURJIT SINGH BARNALA): (a) and (b) Keeping in view the long term objective of ensuring efficient handling of processed milk by Delhi Milk Scheme, extensive renovation work has had to be under-taken in the Central Dairy Complex. The bottling plants are also under renovation and as such it is not possible to handle milk to the targeted capacity. It is

because of this that it is not possible to process more than 2.20 lac litres of milk per day while the renovation work is in progress.

(c) No, Sir.

(d) and (e) The renovation of the Central Dairy Complex is expected to be completed by December, 1979 and thereafter the level of distribution of milk can be suitably raised to 3 lac litres per day. As such there will be no retrenchment of staff on this account.
