

cracker plant proposed to be set up by NOCIL ?

THE MINISTER OF PETROLEUM, CHEMICALS AND FERTILIZERS (SHRI H. N. BAHUGUNA) : (a) to (c) For the present it has been decided that the off-shore gas will be fractionated to separate LPG from the remaining fractions; which could be utilised for the manufacture of fertilizers. A quantity of approximately 1800 tonnes of gas per day (after removal of LPG) will be made available to Trombay-I, II and V units of the Fertilizer Corporation of India. The requirement of gas for the proposed fertilizer complex at Rewas will be of the order of 2700 tonnes of gas per day.

Projections of the long-term demand for petro-chemicals are being studied and the question of further fractionation of gas for petro-chemicals and the setting up of a gas cracker plant will depend on the results of the study.
