

duction of fertilizers presently falls short of the requirements and imports are arranged to make good the gap.

A large scale programme for setting up additional capacity for the manufacture of fertilizers is under implementation. Even with the completion of this programme, the gap between consumption and production is expected to be about 12 lakh tonnes of Nitrogen and 6 lakh tonnes of P2O5 in 1983-84. Action is on hand to set up additional fertilizer capacity to reduce this gap and move towards self-sufficiency.

Confirmation of Railway officials

*560. SHRI SANAT KUMAR RAHA:
SHRI YOGENDRA SHARMA:
SHRI LAKSHMANA
MAHAPATRO:

Will the Minister of RAILWAYS be pleased to state:

(a) whether it is a fact that a number of railway officials, with 12 to 22 years of service to their credit, have not yet been confirmed; and

(b) if so, what is the number of such officers and what measures Government propose to take to confirm them?

THE MINISTER OF RAILWAYS (PROF. MADHU DANDAVATE): (a) and (b) Out of 1089 temporary Officers recruited between 1955 and 1968, only 303 are left to be confirmed. The Government have recently increased substantially the annual quota of confirmation in Class I/Junior Scale of Temporary Officers. It has also proposed to absorb permanently some of these Officers in the Indian Railway Personnel Service and the Indian Railway Stores Service.

Assets, profits and remittances of the multinational drug companies

*561. SHRI HIMMAT SINH:

DR. V. P. DUTT:

SHRI NRIPATI RANJAN
CHOUDHURY:

SHRI HARSH DEO MALAVI-
YA:

Will the Minister of PETROLEUM, CHEMICALS AND FERTILIZERS be pleased to state:

(a) the details of assets, profits and foreign remittances of the multinational drug companies operating in India during 1974-75, 1975-76 and 1976-77, year-wise; and

(b) whether any efforts have been made recently to cut down their pre-

fits and remittances and if so, what are the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF PETROLEUM, CHEMICALS AND FERTILIZERS (SHRI JANESHWAR MISHRA): (a) and (b) A statement is laid on the Table of the House.

Statement

(a) The details of assets and profits of and repatriations by the foreign drug manufacturing companies operating in the organised sector of the Drug Industry in India during the last three years, to the extent available, are indicated in the Annexure (See Appendix CIII, Annexure No. 55)

(b) Reduction in the foreign equity holdings and consequent reduction in repatriations by foreign drug manufacturing firms is obtained through the following two measures:—

(a) Under Section 29 of the Foreign Exchange Regulation Act, foreign drug manufacturing companies having foreign equity more than 40 per cent are required to reduce their foreign equity to a level not exceeding 74 per cent or some intermediate level between 40 per cent and 74 per cent depending on the nature of their total activities; and

(b) By the scheme of dilution of foreign equity announced by the Government in February, 1972 where by companies having foreign equity exceeding 51 per cent and expanding their activities are required to induct Indian capital upto prescribed levels of the cost of the expansion. Conditions for diluting equity holdings as per this formula are invariably being imposed while granting expansion in manufacturing activities to such companies.

Foreign drug companies are being allowed expansion in manufacturing activities only in selected fields which require heavier capital investment, thus

necessitating a greater quantum of the profits earned by such companies having to be ploughed back as investments and thus reducing the quantum of repatriable profits available to them.

The manner in which the activities of foreign drug manufacturing companies should be further regulated and controller is under the active consideration of Government in the context of the recommendations in this respect made by the Hathi Committee.
