SHRIMATI SUSHILA SHANKAR
ADIVAREKAR:

Will the Minister of AGRICULTURE
AND IRRIGATION be pleased to state:

(a) whether Government are aware that
due to wrong estimates submitted by State
Governments for their half-yearly
requirements, indigenous and pool fertilisers
are surplus in some States and in short supply
in some other State; and

(b) if so, what steps Government propose to take to remove the imbalances in the availability of fertilisers?

THE MINISTER OF AGRICULTURE AND IRRIGATION (SHRI SURJIT SINGH BARNALA): (a) The estimates of the requirement of fertilisers for each crop season made by the State Government are scrutinised in the Zonal Conferences held twice a year before each crop season and attended by the representatives of the Central Government and the State Governments concerned. The scrutiny is done in accordance with a well-established formula. This formula takes into account the actual levels of fertiliser application and the proposed area coverages. Whenever necessary, the adjustments in the supplies are also made from time to time in the light of further developments. As such, the Central Government has no information to indicate that there is an excessively high surplus of fertilisers in some States or that there is a shortage of fertilisers in some States.

(b) Question does not arise.
