Definition of 'Small Farmers' in Drought Prone Areas

488. SHRI F. M. KHAN: Will the Minister of AGRICULTURE AND IRRIGATION be pleased to state;

(a) whether the Central Government have received requests from some State Governments for revision of the definition of 'small farmers' in drought prone areas for the purpose of eligibility for loans; and

(b) if so, what are the details thereof and whether Government have taken a decision thereon?

THE MINISTER OF AGRICULTURE AND IRRIGATION (SHRI SURJIT SINGH BARNALA): (a) Yes, Sir.

(b) According to the earlier definition, small farmers in DFAP areas included farmers with land holdings up to 2 hectares in terms of dry-land or 1 hectare of class I irrigated land. Cultivators with 1 hectare of dry-land or \ hectare of class I irrigated land were classified as marginal farmers.

Some of the State governments, notably, Gujarat, Maharashtra, Rajasthan and Karnataka pleaded for an upward revision in the definition of the small and marginal farmers. The definition of small farmers has been revised for different agro-climatic zones. For the desert areas, the upper limit for the small farmers has been revised to 7 hectares dry and 3 hectares irrigated, except for Jaisalmar district where according to the definition the upper limit is 10 hectares of dry land. In all the semi-arid tracts, the limit has been revised to 3 hectares dry and 1^{1/2} hectares wet. The marginal farmers will be those who have land holdings up to half the size of holdings mentioned for the small farmers. The States which will be benefited are Andhra Pradesh, Gujarat, Jammu and Kashmir, Karnataka, Maharashtra, Haryana and Rajasthan.
