The remaining 3 flats are in the process of allotment to eligible officers.

There are more than 350 Service Officers on the married accommodation roster at Bombay and the position of married accommodation is very acute. It is not possible to shift the officers occupying the building 'RIVERA' as alternate accommodation is not available. As at other stations, efforts are being made to gradually build Government owned accommodation at Bombay. On account of paucity of funds, however, progress, has been slow and so the necessity to retain the building/flats held on hire requisition continues to exist. It is not possible to say when the building will be de-hired.]
