

convenience of transport, and also in assuring that all the components required are available at site at the time of erection, it is usual to collect the equipment at site well in time. The equipment is taken out of storage in sequence as needed for erection. A careful review has been made of the projects being implemented and it has been found that the equipment in storage without being in the process of erection today is very small compared to the programme of erection of about 5,000 MW of equipment which is on hand currently for creating additional capacity during the first two years of the Fifth Plan.

(b) The following projects have been delayed for more than six months for non-completion of civil works:

Northern Region

Giri Bate (Hydro)	2 × 30 MW
Baira Siul (Hydro)	3 × 60 MW
Badarpur (Thermal)	2 × 100 MW

Western Region

Vaitarna (Hydro)	1 × 60 MW
Bhatgar (Hydro)	1 × 16 MW
Koyna (Hydro)	4 × 80 MW

Southern Region

Idikki (Hydro)	2 × 130 MW
----------------	------------

Eastern Region

Subernarokha (Hydro)	1 × 65 MW
Patratu (Thermal)	2 × 110 MW
Blimela (Hydro)	3 × 60 MW

North-Eastern Region

Gumti (Hydro)	2 × 5 MW
---------------	----------

The delays in the execution of the civil works are mainly due to (i) inadequate resources on the part of the contractors for executing the projects (ii) non-availability of cement, steel, explosives, gases etc. in time (iii) want of adequate communication facilities in the shape of access roads (iv) labour unrest.

(c) The following steps are being taken to ensure proper and effective co-ordination between Centre and the States authorities to ensure completion and commissioning of these projects according to the revised schedule.

(i) Restructuring of the electricity supply industry with a view to improve the capability to achieve targets and remove past short-comings.

(ii) Changing procedures and priorities with a view to improve the timely availability of all required inputs including funds.

(iii) Installing effective multi-tiered monitoring systems so as to watch performance and supply timely correctives wherever necessary.
