

ing sites for these projects Government will consider setting up these plants in backward areas where bamboos are grown and not in urban areas where it will require railway wagons for transport of bamboos from the bamboo-growing areas to the urban areas?

SHRI C. SUBRAMANIAM : The availability of bamboo is limited but now we are in a position to use not only soft wood but hard wood also for the preparation of pulp for the manufacture of paper. So it is on the basis of availability of war materials that we select the sites. Certainly in selecting the sites we give preference to backward areas in preference to other areas which are already developed.

SHRI SANDA NARAYANAPPA : May I know from the hon. Minister whether there is a proposal to set up a paper pulp industry in Rayala-seema area where in Nallamalai forest bamboo is available ?

SHRI C. SUBRAMANIAM : There is no such thing in contemplation now. If the hon-Member is interested he may ask the Andhra Pradesh Government to make a survey and then submit the feasibility report to the Central Government. Then certainly we shall consider that.

SHRI BHUPESH GUPTA : Is there any proposal for starting such an industry in Tripura for example and also in Manipur and if so, I would like to know what steps Government have taken in the matter. Do I have an assurance that preference would be given as far as possible to starting such industries in Manipur and Tripura in the public sector ?

SHRI C. SUBRAMANIAM : This is under the consideration of the Government. The Tripura Government has made a specific proposal with regard to the starting of a paper project there and it is under the consideration of the Central Government now. We hope to take a decision soon.

SHRI BHUPESH GUPTA : Manipur.

SHRI C. SUBRAMANIAM : Manipur, we shall consider with regard to the availability of raw material there. Now we find we have already taken up quite a few projects in that area and certainly we cannot concentrate everything in the north eastern region.

SHRI BHUPESH GUPTA : May I know from the hon. Minister whether it is a fact that now some multi-national corporations are also being invited to invest in this country and that letters of intent are being issued in favour of those big business houses who would be in position to get our industrial development linked up with the multi-national corporations ? May I know whether the Government is contemplating to completely reverse the policy and that in the name of self-reliance they want to get those people who are exploiters into our country ?

SHRI C. SUBRAMANIAM : The policy with regard to the larger houses and also the foreign companies has already been laid on the Table of the House and it has also been discussed here. They have been allowed to enter only certain areas and licences are being given for establishing industries in those areas only.

Secondly, with regard to the other products, if they are export-oriented, *i.e.*, if more than 60 per cent of the production is for export, then consideration is given in respect of those products also to the larger houses and foreign companies. This is the policy and this has been accepted by the House also.

MR. DEPUTY CHAIRMAN : The Question Hour is over.
