KUMARI CHUNDAWAT

SHRI MOHAMMED USMAN  
ARIF

SHRI SAWAISINGH SISODIA

SHRI MONORANJAN ROY

Will the Minister of WORKS AND HOUSING be pleased to state

(a) whether Government have made any assessment to find out the main reasons for the potable water shortage in the country,

(b) if so, the details thereof

(c) the schemes under Government's consideration to meet the shortage and

(d) the total amount spent by Government for water supply schemes during the Fourth Plan?

THE MINISTER OF WORKS AND HOUSING (SHRI BHOJA PASWAN SHASTRI) (a) to (d) A statement is laid on the Table of the Sabha

#### STATEMENT

(a) and (b) The subject of water and water supplies is under entry 17 in the State List of the Seventh Schedule to the Constitution of India. However realising the importance of the matter the Central Government has also initiated a Centrally sponsored scheme of Special Investigations in the States to assess the problem of shortage of drinking water in permanently disadvantaged villages. According to these investigations, the reason for non availability of drinking water is due to the difference in the availability of ground and surface water in the various parts of the country which is due to the following reasons —

(i) Climatic conditions

(ii) Uneven distribution of rainfall and rivers

(iii) Difference in natural features including geological formations

Increase in population and in the standard of living also add to the problem

(c) and (d) By the end of the Fourth Plan the expenditure incurred by State Governments on rural water supply schemes in the plan period will be of the order of about Rs 150 to 160 crores against an outlay of Rs 125 crores. Besides, the Central Government under the Accelerated Programme for Rural Water Supply, will be giving about Rs 34 crores during the last two

years of the Fourth Plan as full grant in aid to State Governments and Union Territories for water supply schemes in the difficult and problem villages. During the Fourth Plan the State Governments will be spending Rs. 280 crores urban water supply and sewerage schemes which do not include the special funds being spent for the development of Calcutta and Bombay.

Rural water supply is an important objective under the Minimum Needs Programme in the Fifth Plan and it is proposed to provide Rs. 550 crores for this purpose during the Fifth Plan period. This will solve bulk of the problem of drinking water in the problem rural areas.

It is proposed to provide Rs. 250 crores in the Fifth Plan for Urban Water Supply and Sewerage schemes.
