

(a) 1,47,867 villages have been electrified in the country upto June, 1973. Statewise break-up of these villages is given in the attached statement

(b) and (c) In view of the prevailing drought conditions in the country and the need for growing more foodgrains, instructions were issued in August, 1972 to all the State Electricity Boards to give highest priority to energisation of tubewells. They were also asked to conserve energy to the maximum possible extent, if necessary, by curtailing supply elsewhere but in no case deny power supply to agricultural pump-sets. No cuts were imposed on energy consumption in the agricultural sector during the recent power shortage. Only rostering of loads was done in order to stagger the demand.

Statement

Villages Electrified in Various States

State	Total No. of villages	No. of villages electrified as on 30-6-1973
1 Andhra Pradesh	27,084	9,914
2. Assam	20,565	821
