†[THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN) : (a) Yes, Sir. The Government propose to bring forward a legislation which will provide inter alia for registration of antiquities and for compulsory acquisition of antiquities and art treasures with a view to preserving them in public places. The categories of antiquities required to be registered will be notified by the Government from time to time.

(b) According to the proposed legislation, it will not be lawful for any person other than the Central Government, or any authority or agency authorised by it, to export any antiquity or art treasure. The present policy is to permit export only when the antiquities are meant for educational institutions, recognised State Museums or bonafide temporary exhibitions or are presented as State gifts. It may, however, be added that the Central Museums Review Committee, while observing that export of all antiquities should be done through the State, has also expressed the feeling that permanent body be set up to advise Government on the sale of surplus antiquities in the overseas market. The Committee's report is under consideration of Government.

(c) and (d) Government are aware that, like other individuals, some Government officials are also in possession of works of art, idols, etc. Under the proposed legislation, Government officials will also be required to register the specified categories of antiquities, giving the necessary details about them.]
