THE MINISTER OF STATE IN THE MINISTRY OF STEEL AND MINES (SHRI SHAH NAWAZ KHAN) : (a) It is a fact that there is a shortage of steel at present. Agricultural equipment manufacturing industries in Kerala as in other parts of India, may be suffering to some extent due to this.

(b) Several steps have been taken to improve availability. Every effort is being made to step up production in the Steel Plants. For the agricultural implements manufacturing units in Kerala in particular, a special allocation of about 500 tonnes of export surplus rails has been made. Further, about 2 lakh tonnes of used rails, which had remained frozen under a court injunction, have now become available and a part of these rails is proposed to be earmarked for agricultural implements manufacturers. The units in Kerala will also get their due share out of this.

The Protocol envisages a trade turnover of Rs 92 crores for 1972 between the two countries. Major items of import are urea, sulphur, ships equipment, rolled steel products, dye intermediates, pharmaceuticals, chemicals, refractories, tractors and spares and capital goods and equipment. Main export items are iron ore, de-oiled cakes, processed mica, jute manufactures, cotton textiles and yarn, black pepper, tea, hides and skins, animal feed compounds, consumer durables and railway wagons.

(b) During the visit to Delhi last January of the Polish Deputy Premier Jan Mitrega letters were exchanged between him and the leader of the Indian delegation establishing an Indo-Polish Commission for Economic, Trade, Scientific and Technical Cooperation.

The Commission will consist of ministerial level representative of the two Governments. It may set up such committees at the official level as may be considered appropriate for a detailed discussion of items under consideration.

The main functions of the Commission will be to enlarge areas of co-operation in the fields of its competence. This will be done through joint studies of development programmes and elaboration of measures for collaboration in trade, industry, science and technology as well as through periodical reviews of on-going programmes of co-operation.

(c) The first meeting of the Commission is likely to be held early in 1973.

It is expected that through the functioning of this Commission the bilateral relations between India and Poland will be further strengthened, thus promoting our trade with Poland and benefiting our industries and scientific institutions in the sectors where Poland has achieved considerable competence.

CRASH IN COTTON PRICES IN VARIOUS MARKETS IN THE COUNTRY

SHRI BABUBHAI M CHINAI (Maharashtra) Sir, I call the attention of the Minister of Foreign Trade to the steep crash in cotton prices in various markets in the country due to lack of credit, and the steps taken by the Government and the Cotton Corporation of India to remedy the situation.

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A C GEORGE) Mr Chairman, Sir, Cotton production during the current year has been very encouraging.
