As a special dispensation for the agriculture sector, the Government of India has advised all the public sector banks to reduce their lending rate for agriculture to a single digit rate of not more than 9% per annum on crop loans up to a ceiling of Rs. 50,000/-. Keeping in view the importance of flow of credit to agriculture, in particular to the smaller borrowers who may not have the necessary assets as collateral, the banks have been advised to waive margin/security requirements for agricultural loans upto Rs. 50,000/-. NABARD has also issued guidelines on schemes for Redemption of Debts of farmers from non-institutional sources.
