

SHRI GULZARILAL NANDA : Regarding that, I believe there is a very good prospect of making saving in respect of fuel specially coal. Some drives which have been made so far in certain divisions and in certain railways have already yielded very good results. In one division about 6 per cent economy and saving in coal consumption was achieved during the last three-four months. That means about Rs. 34 lakhs will be saved in one year in one division. Though the programme was taken up late, I believe that in the coming year about 6 per cent saving is likely to be achieved in coal and may be something in diesel also.
