

About 580 tonnes of foodgrains as indicated below are reported to have been damaged between June to September 1969 out of the stocks held by the Food Corporation of India and the State Governments :

	Tonnes
Food Corporation of India	525.00
Rajasthan	1.50
West Bengal	30.81
Uttar Pradesh	22.64
TOTAL	679.95

The loss in all cases was not, however, due to unsatisfactory storage facilities. Most of the damage occurred at the time of heavy rush of foodgrains to the godowns and when, at some places, substandard storage arrangements had to be resorted to deal with the large quantities handled. Storage facilities are being supplemented through construction of new godowns and maintenance of stocks in healthy condition is ensured through the employment of technically qualified staff and regular periodical inspections.
