(c) Yes, Madam. The saw-mill installed at Chatham by Government is running

at a loss. Based on the figures given in the proforma accounts of the forest Department for the last three years the average annual loss works out to Rs. 35,96,228. Reasons for losses mainly are—(i) High Cost of logs as fixed by the commercial system of accounting adopted by the Department ; (ii) sawing of inferior quality logs yields poor out-turn of sawn-timber ; (iii) Use of old and out-moded machinery and equipment ; (iv) increase in the cost of stores used in the saw mill ; (v) increase in pay and allowances given to the industrial employees due to liberalised service conditions ; and (vi) sale of sawn timber in the Islands and on the mainland markets at rates lower than the cost of production.

Steps taken to obviate the losses are (1) re-examination of costing of raw-materials in proforma accounts (2) replacement of old and out-moded machinery and equipment on phased basis ; and (3) consideration for increase in the rates for local sale of sawn timber.

(d) No, Madam.
