STATEMENT

The main findings of the Selling Hand-loom Delegation which visited Italy, France, Netherlands, Federal Republic of Germany and Belgium are given below :—

(i) Publicity for handloom goods in the countries visited by the Delegation was most inadequate. The delegation has recommended that well coordinated programmes of holding handloom promotion weeks/fortnights may be organised.

(ii) With a view to avoid competition amongst exporters the delegation has recommended the formation of a Consortium of Exporters which may include all those exporters who have a substantial turnover.

(iii) The Handloom Export Promotion Council, the All India Handloom Board and the Weavers' Service Centres should assist the handloom producers in producing fabrics required by these countries, particularly so far as colour and washing properties are concerned.

(iv) All handloom fabrics meant for export should be given anti-crease treatment.

(v) Ready-to-wear garments are getting more popular in these countries. Promi-

nent designers from these countries may be closely associated with our exports of ready-to-wear garments.

(vi) The Consortium of Exporters referred to in para (ii) above may appoint a representative in Europe who should have adequate commercial and technical knowledge and competence.
