

वाली डाउन माल गाड़ी के एक डिब्बे में इस्पात छड़ लदे हुए थे। इनमें से एक छड़ बाहर निकला हुआ था जिससे सीढ़ी में ठोकर लग गयी थी और जिसकी वजह से सीढ़ी टेढ़ी हो गयी थी।

†[THE MINISTER OF RAILWAYS (SHRI C. M. POONACHA) : (a) Presumably the reference is to those accidents in which statutory inquiries are held by the Commission of Railway Safety. During the period 1-8-68 to 31-10-68 five such accidents took place on the Indian Government Railways—two each on the Northern and the Central Railways and one on the Eastern Railway.

(b) *Prima facie* the accident was caused by a roller bearing seizure in the left leading roller bearing axle box of the coach marshalled fifth from the train engine.

(c) and (d) Three persons travelling by 5 Down Punjab Mail were killed and 13 injured of whom 5 are still in the hospitals. According to the provisional finding of the Additional Commissioner of Railway Safety, the casualties resulted from a signal-post ladder fouling the actual moving dimensions. The signal-post ladder had been hit and distorted by a protruding steel billet loaded in a wagon of a Down Goods train which immediately preceded the 5 Down Punjab Mail.]
