

SHRI A. D. MANI : On a point of order, Sir. This question was given notice of one and a half months ago and the Ministry should have collected the facts. We are not asking any question for fun. We want to get some information from the Ministers. I asked him what was the number of workers affected, and I think the Minister should have collected all the information and then given his answers in this House. I am very sorry to say this.

SHRI DINESH SINGH : It was equally easy for me to say that the hon. Member may have asked that specific question, and I would have certainly given the answer. So far as the general question raised by Shri Rajnarain is concerned, it is a question of the tea gardens or other plantations which may be closed down. That is a much larger issue, Sir, it is not a question of those which are being mismanaged. We do not have the information of all the plantations, of individual industrial undertakings which may be mismanaged. The question really refers to those which may have been closed down.

MP. CHAIRMAN : The Question Hour is over.
