STEPS TO CHECK POPULATION GROWTH

91. SHRIMATI TARA RAMCHANDRA SATHE: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether it is a fact that Government intend to prohibit the marriage of girls below 21 years as has been suggested by the Central Family Planning Council for checking the rapid growth of population in the Country; and

(b) the other steps which the Central Family Planning Council has advised for checking the growth of population?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI B. S. MURTHY): (a) The Central Family Planning Council at its second meeting held at Bangalore passed the following resolution:—

"The Central Family Planning Council, considering that postponement of marriage will delay the onset of child bearing and reduce the actual reproductive period, realising that size of the family is related to the educational level of the mother and that employment of women may act as a powerful force for reducing the number; reiterates that Government may take urgent steps to improve educational and employment opportunities for women and social workers. Social Welfare agencies and the other voluntary organisations may continue to make efforts further to create public opinion for raising the age of marriage. The existing laws too may be reviewed for the purpose of raising the age of marriage.

In pursuance of the above mentioned resolution, the Government are considering the question of raising the minimum age of marriage for girls and boys.
